

μ Phase[®] VERTICAL

The universal interferometer system for production, workshop and laboratory

Key Features:

- Vertical measurement setup with small footprint
- For measuring flat and spherical surfaces up to $\varnothing = 50\text{mm}$
- Integrated automatic radius measurement
- Sample support on tilt and X-Y translation table
- Optional with tray for measuring a multiple number of samples at once
- Transmission measurement possible

(Picture above shows the version with μ Lens PLANO 50 for a multiple sample measurement.)
